Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 8, 13 and 20, drawn to an isolated calmodulin-dependent serine/threonine kinase and a composition comprising said kinase.

Group II, claim(s) 2-7, 9-12, 14-19, 23 and 24, drawn to isolated DNA molecules encoding said kinase, a single stranded RNA molecule complementary to at least a portion of mRNA which is the transcription product of a DNA encoding said kinase and a method of neutralizing said mRNA using said single stranded RNA.

Group III, claim(s) 21 and 22, drawn to antibodies which specifically recognize said kinase and antigen binding portions of said antibodies.

Group IV, claim(s) 25, drawn to a method of screening individuals for predisposition to cancer comprising using said DNA molecules.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical features of inventions of Groups I, II and III are polypeptides, DNA and antibodies which are products of unrelated structures and

Art Unit: 1652

function. Groups II and IV share a common technical feature. However, said inventions are not required to be rejoined under PCT Rule 13.1, because Group II invention already has a method of use of DNA.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
